COMPLIANT VIRAL MARKETING FOR KENYA'S BETTING MARKET

PROBLEM

CLIP GANJI

KENYA'S BETTING MARKET IS BOOMING – AND LEGALLY IMPOSSIBLE TO ADVERTISE IN

1.

CELEB AND INFLUENCER BAN

Kenya's BCLB banned all celebrity and influencer endorsements for betting brands in 2019, with fines up to KSh 5M for violations. Updated 2023 enforcement closed remaining loopholes.

2.

ADS SKIPPED OR BLOCKED

85% of Kenyan youth skip pre-roll ads. Over 90% of betting activity happens on mobile where ad-blockers are standard. Traditional campaigns deliver near-zero ROI.

3.

MARKET GAP = LOST REVENUE

11M+ active bettors. KSh 200B+ annual turnover. 70% under age 35, mobile-first. Betting brands have massive audience potential but no compliant way to reach them.

OUR SOLUTION

CLIP GANJI

CLIPPING FILLS THE GAP

SHORT-FORM CLIP CONTENT IS LEGALLY CLASSIFIED AS FAN CONTENT – NOT BRAND ENDORSEMENT. THAT DISTINCTION MAKES IT THE ONLY VIABLE VIRAL CHANNEL FOR BETTING BRANDS IN KENYA TODAY.

LEGALLY COMPLIANT

Clips are fan-generated content — no endorsement classification, no BCLB exposure for the brand.

ORGANIC VIRALITY

Logo integrations in IRL and streamer reactions spark natural sharing and debate — exactly how clips of branded streams spread across Kenyan TikTok and Telegram groups.

MEASURABLE ROI

UTM-tracked view counts tied directly to app downloads. Every campaign is fully attributable and reportable.

💻 Google / Meta Paid Ads (Kenya)
KSh 800–2,500 CPM
Per 1,000 impressions. 90%+ of mobile users have ad blockers or scroll past. Average view time under 1.5 seconds. High spend, low memory.

VS

🎯 ClipGanji CPM
KSh 400–800 CPM
Half the cost of Meta ads. Full video watch-through. Cannot be blocked. Cannot be scrolled past. Brand logo in frame for the full duration.

BRAND PLACEMENT

CLIP GANJI

THIS IS HOW YOUR BRAND APPEARS ON EVERY CLIP OUR NETWORK POSTS. LOGO-FIRST. ALWAYS VISIBLE. NEVER A PAID AD.

PERSISTENT LOGO BUG

Top-right corner — stays in frame for the full duration of every clip, regardless of content.

BRAND NAME + DOMAIN

Your brand name and website are clearly legible at all times, driving direct search and app installs.

PERSISTENT LOGO BUG

Clip is filed as organic fan content — not a brand endorsement — protecting your BCLB compliance entirely.

PERSISTENT LOGO BUG

Each clip in the network averages 100K+ Kenyan views. 10+ clippers posting simultaneously = 1M+ views per campaign.

In all forms of Clip Ganji Marketing, a link to your app/website is placed in the description and on the bio of the account during the duration of the campaign. The videos are never taken down after the campaign, meaning your views will continue increasing tremendously with time.
